CAREER OBJECTIVE

Network & IT Executive with nearly 2 years of hands-on experience in enterprise networking and IT infrastructure management. Skilled in MikroTik and Cisco networking, VLAN, VPN, GRE Tunnel, Routing & Switching, Firewall, and Network Monitoring. Experienced in managing multi-branch office networks, IP surveillance systems, ERP data operations, and PBX/VoIP telephony systems. Currently pursuing Cisco CCNA certification and continuously enhancing my skills in Network Engineering and Cloud Technologies.

WORK EXPERIENCE

Fu Info Tech Ltd. — Network & IT Executive **May 2024 – January 2026**

Dhaka, Khilket, Nikunjo-1

- Segmented office networks using VLANs to isolate and simultaneously initialize multiple IP cameras, keeping live surveillance feeds stable and latency-free
- Configured and maintained IP camera, NVR/DVR, and access control systems, including AI-based monitoring, ensuring smooth 24/7 live feed performance
- Implemented load balancing across MikroTik and Cisco routers/switches, significantly reducing network latency and improving overall network performance
- Managed multiple client sites/projects in parallel, handling day-to-day troubleshooting, configuration, and support requests
- Optimized network configurations to cut downtime and save operational time while multitasking across concurrent projects
- Set up and maintained Windows Server, RDP, and storage/NAS servers, along with IP and POS printers, to support daily business operations
- Monitored server and network infrastructure — Windows Server, RDP, NAS/storage servers, and network printers — to maintain continuous uptime
- Identified and mitigated network-layer threats including ARP spoofing, VLAN hopping, BGP route hijacking, and physical fiber-tap attempts, using tools like Nmap and Wireshark to protect network integrity
- Performed ERP data entry and reporting for daily operational records, ensuring accuracy and timely updates across business processes
- Installed, configured, and maintained an Asterisk/FreePBX-based telephony system, managing extensions, call routing, and voicemail for office communication

TECHNICAL SKILLS

Networking Fundamentals

- IP Addressing & Subnetting — VLSM, CIDR, Subnet Planning
- DHCP — Pool/Lease Management, Static Bindings, Option Configuration
- DNS — Forwarding, Local Records, Name Resolution Troubleshooting
- LAN/WAN — Design, Setup, Monitoring, Troubleshooting
- Network Monitoring — PRTG, MikroTik Dude
- Windows Server & RDP
- Storage & NAS Servers — Setup, Configuration, Maintenance

Routing — MikroTik & Cisco / CCNA

- MikroTik RouterOS — Routing, NAT, Firewall, GRE Tunnel, Site-to-Site VPN, Bandwidth Management, Scripting
- Cisco Router (CCNA Concepts) — Interface Configuration, Static & Dynamic Routing, ACLs
- Routing Protocols — Static Routing, OSPF, BGP

Switching & VLAN Security

- Managed Switch Administration — VLAN, Trunking, STP/RSTP
- Port Security — MAC Limiting/Binding, Unused Port Lockdown

Network Security & Threat Mitigation

- Router & Firewall Security — ACLs, NAT/Port Filtering
- VPN & Data Encryption — IPsec/GRE Site-to-Site Tunnels
- Network Threat Detection & Mitigation — identifying and preventing ARP spoofing, VLAN hopping, BGP route hijacking, and physical fiber-tap attempts
- Security Tools — Nmap (network/port scanning), Wireshark (packet capture & traffic analysis)
- Introduction to Cybersecurity

Systems

- Windows installation/configuration, Windows Server, RDP, NAS/storage administration
- Backup & Documentation — Regular data backup, IT asset inventory, Hardware/software documentation
- Linux Commands — Server & Network Administration, Log Review, Process/Service Management, Troubleshooting
- Printer & POS Systems — Setup, Configuration, and Maintenance of Network Printers and POS Devices
- Hardware & Software Troubleshooting — Diagnosing and Resolving PC, Peripheral, OS, and Application-Level Issues

ERP & Telephony Systems

- ERP Systems — Data Entry & Reporting for daily operational and business process records (custom/in-house ERP platform)
- PBX / VoIP — Asterisk/FreePBX Installation, Extension & Call Routing Configuration, Voicemail Setup, Troubleshooting

Automation, AI Tools & Office

- Python Automation — Config Backup, Scheduled Restarts, Network Health Scripts, Open Router Agent
- AI Tools — ChatGPT, Gemini, DeepSeek, Claude (for research, troubleshooting assistance, and productivity)
- Basic Web Design — HTML, CSS, JavaScript, Python
- MS Office — Word, Excel, PowerPoint
- Microsoft 365 & Google Workspace

Surveillance & AI-Based Camera Systems

- IP Camera / NVR / DVR — Installation, Configuration, Remote Access, Storage & Recording Setup
- PoE (Power over Ethernet) Systems — PoE Switches/Injectors for IP Camera Power and Data over Single Cable
- Surveillance Monitoring Tools — SmartPSS, DSS, iVMS-4200, HikCentral Professional, Milestone XProtect, Shinobi, ZoneMinder
- AI Camera Analytics — Human/Motion Detection, People Counting, Vehicle Tracking, Facial Recognition
- NVR AI Playback Search — Fast Event & Object-Based Footage Retrieval
- Automated Reporting — HDD Health & Playback-Stop Alerts via Gmail (Python Scripting)
- Access Control — Door Controller, Card Reader, Biometric Device Setup

EDUCATIONAL QUALIFICATION

Diploma in Engineering — Computer
Center For Technology Transfer (CTT), BTEB | Passing Year: 2023 | GPA: 3.76 / 4.00

Secondary School Certificate (SSC) — Business
Tumilia Boys' High School, Dhaka Board | Passing Year: 2019 | GPA: 3.61 / 5.00

CERTIFICATIONS & TRAINING

- MikroTik RouterOS — Certified (Practical Experience)
- Cisco CCNA — Knowledge & Hands-on Lab Practice (Certification in Progress)
- Introduction to Cybersecurity

LANGUAGE PROFICIENCY

- Bengali — Native
- English — Intermediate
